

WARE IN THE WORLD

MISSION UPDATE SUMMER 2025

ISSUE 7

Paul and Alison joins CCW Mission Partner Family

WELCOME TO MISSION NEWS SUMMER 2025

- New mission partners
- Lynch family mission trip to South East Asia
- Legacy fund updates
 - Restoring vision in Sri Lanka
 - Health care for asylum seekers
 - Building work started in Zambia

We are pleased to report that the PCC have accepted Paul and Alison into the family of Christ Church mission partners. Please pray for Alison and Paul who live and work in Burundi.

The emphasis of their work is mission mobilising and training for believers in Burundi and beyond. They are busy on home assignment and return to Burundi with their three children in August. Look out for more information in the next edition of **WARE IN THE WORLD**.

The Lynch Family Mission Trip

After lots of fund raising, they are busy preparing to head off to South East Asia.

Please pray for travel plans, good health, learning and good communication on their trip to South East Asia where they will be involved in many activities including:

- A clean water project in rural villages.
- A rural farm project by learning about different methods and practices.
- Sports outreach with a local school: working with a team.

Restoring Vision in Sri Lanka

Here are some excerpts from the report by Charlotte in Sri Lanka

On behalf of every individual whose sight has been restored and whose life has been profoundly changed, we extend our deepest and most sincere gratitude to you, Christ Church Ware. Your support made it possible not only to carry out 110 life-changing cataract surgeries, but to restore dignity, independence, and hope to people who had been living in darkness. Thanks to your compassion and commitment, elderly mothers can once again see their grandchildren, breadwinners have returned to work, and lives have been renewed in ways that words can hardly express. This project has been a powerful reminder that sight is more than just vision—it is freedom, opportunity, and connection. Thank you for making that possible and choosing to partner with The Dust Project and our work in Sri Lanka.

"The surgery has allowed me to restart my business of making small flower arrangements."

Mrs. R. G. Seetha Rupasingha (70)

"It's clearer for me to see after the surgery"

Mr. Ganeshan Jinesh Kumar (44)

"I am very happy about the surgery - thank you"

Mrs. R. Kamala Sundari (69)

"Thank you for doing the surgery on time and making my life better"

Mr. M. Kalaivanam (64)

As a charity, The Dust Project was privileged to partner with the Paalam Project to bring this initiative to life through collaboration with several key organisations. One of the most significant partnerships was with the Rotary Club of PanColombo, whose members offered vital support throughout the surgical process and follow-up care. This included the provision of essential aftercare and glasses for patients in need. Among their members, optometrist Chanaka Weerasandara played a pivotal role, drawing on his professional network to introduce us to the Lions Golden Jubilee Eye Hospital in Kadawatha. The hospital's chairperson, Mr. Mahesh Pasquel, was deeply moved by the vision to serve individuals from low socio-economic backgrounds and generously offered to carry out the surgeries at cost price. This remarkable gesture

allowed the £10,000 funding — which we had anticipated would fund 80 surgeries — to stretch significantly further, ultimately covering 110 life-changing cataract operations.

Health Care for Asylum Seekers

*Updates from Athens OneHeart
Clinic/www.reachbeyond.org.uk*

OneHeart clinic in Athens (under **Reach Beyond UK**) now employs a Greek doctor for five hours per week to treat asylum seekers and refugees. Manchester GP, Dr. Tom, volunteered for a week at the clinic in June 2025 and met Dr. Leonidas. He was impressed by the contribution and dedication of Dr. Leonidas. The provision of Legacy funding has improved health care for the Iranian, Afghan and Kurdish patients who come from the refugee camp on the outskirts.

For example, an Afghan came with a large lump in his leg. The story is that he was helping the British in Kabul and got hit in the leg by shrapnel. His body had reacted by growing a large painful area around the shrapnel. The dedicated team will arrange affordable surgery at a local hospital through their contacts.

- Pray for healing for Saha, who founded and runs OneHeart. She was injured in an accident twelve months ago and recovery has been slow.
- Pray about the application made by the charity to obtain a full Greek Medical licence for the clinic, so that they offer more services (including missionary volunteers).
- With rising energy costs, they want to become self-sufficient in energy by using solar power. They are near their funding target.

Nursery School Building in Zambia

Another project that the Legacy Fund has supported is Mission Direct.

Work has started on the Kiine Nursery School classrooms. The builders are working on the foundations. Thank you Christ Church Ware.

LOCATION OF MISSION PARTNERS

Prem and Indira

Richard and Monica

Mel and James

Charlotte and Manoj

Michael

Paul and Alison

CHRIST CHURCH MISSION PARTNERS INCLUDE:

PEOPLE

- **Prem and Indira** in Nepal (map location 1)
- **Richard and Monica** – UK based (map location 2)
- **Mel and James** in the UK – Birmingham (map location 2)
- **Charlotte and Manoj** in Sri Lanka (map location 3)
- **Michael** in Burundi (map location 4)
- **Alison and Paul** in Burundi (map location 4)
